### 2. NOMADS AT LAST

Wireless communication is changing the way people work, live, love and relate to places and to each other. A 14-page special report on mobile telecoms.

*THE ECONOMIST*

*April 12, 2008*

### 3. IPTV HEADS FOR RAPID DEPLOYMENT WORLDWIDE

IPTV is approaching the "hockey stick" point, where a line graph of the number of subscribers turns suddenly upward like the bend in a hockey stick, according to most industry observers.

*April 2008*

### 4. THE NEXT BIG THING?

First music, now books in snack-like portions are available for download to wireless gadgets. Are ebooks ready to hit the big time?

*CHARGED*

*April 2008*

### 5. THE BROWSER BUNCH

It used to be that Web browsers were just a way to browse the Web. But the Internet is no longer just a huge online library. It's also a shopping mall, television, workshop, school, and community centre. Today's Web browsers are talented multitaskers.

*MACWORLD*

*May 2008*

### 6. TAPPING THE ONLINE MARKET

Hulu, the video-on-demand portal of NBC Universal and News Corporation that recently launched marks the first wholesale move by any US network into online distribution.

*BROADCAST*

*April 11, 2008*

### 7. THE TECHNOLOGICAL NEWSROOM

File-based workflows and automation help TV newsrooms get streamlines and launch High Definition. Broadcast news operations today are facing disparate challenges.

*BROADCASTING & CABLE*

*March 24, 2008*

### 8. 大逆轉：從工業中國到資訊中國

中國的網絡世代比美國遲了近二十年，資訊社會的特徵及對原有社會的衝擊，預料將在十年後達到高峰。
